List of Contents

Introduction	1
1. Fundamental Theory of Modulation Technology – Demodulation	3
2. Filter Circuits	5
2.1 Theoretical Introduction	5
2.2 Measuring the Frequency Response of Different Low-Pass Filters	8
2.3 Measurements on an Integrator	17
3. Amplitude Modulation – Demodulation	
3.1 Theoretical Introduction	23
3.2 Demodulation of AM Signals by Envelope Curve Rectification (Incoherent Method)	25
3.3 Demodulation of AM-DSB Signals (Coherent Method)	33
3.4 Demodulation of AM Single Sideband Signals	41
3.5 Demodulation of AM Signals with PLL Support	50
4. Angle Modulation Techniques – Demodulation	
4.1 Theoretical Introduction	53
4.2 Demodulation of Frequency Modulated Signals with a C-Discriminator	54
4.3 Demodulation of Frequency Modulated Signals with a Count Discriminator	59
4.4 PLL (Phase Locked Loop)	64
4.5 Demodulation of Frequency Modulated Signals with a PLL Circuit	74
4.6 Demodulation of Phase Modulated Signals with a PLL Circuit	76
4.7 Demodulation of Pulse Frequency Modulated Signals	80
5. Digital Modulation Techniques – Demodulation	
5.1 Theoretical Introduction	83
5.2 Demodulation of Amplitude Shift Keying Signals (ASK)	84
5.3 Demodulation of Frequency Shift Keying Signals (FSK) with the PLL Circuit	88
5.4 Demodulation of Frequency Shift Keying Signals (FSK) with the C-Discriminator	91
5.5 Demodulation of Phase Shift Keying Signals (PSK)	93

6. Pulse Modulation Techniques – Demodulation

6.1	Theoretical Introduction	103
6.2	Demodulation of a Pulse Amplitude Modulated Signal with a Low-Pass Filter	105
6.3	Demodulation of a PAM Signal with Sample and Hold Stage and Low-Pass Filter	110
6.4	Time-Division Multiplexing	113
6.5	Demodulation of a Stereo Signal with a Switch Decoder	117

7. Pulse Code Modulation – Demodulation

7.1	Theoretical Introduction	125
7.2	Transmission of DC Voltage Values with a PCM System	126
7.3	Transmission of a Sinusoidal Signal with a PCM System	132
7.4	Time-Division Multiplexing and PCM	134
7.5	Quantization Noise	136

8. Delta Modulation – Demodulation

8.1	Theoretical Introduction	139
8.2	Demodulation of Delta Modulated Signals	140
8.3	Overload Noise	142
8.4	Transmission of Delta Modulated Signals with PSK	145

Solutions	S 1 ... S 76
----------------------------	--------------

Appendix	A 1 ... A 3
---------------------------	-------------
